

The story

After Ellie returned home with the eternal bond, the kingdom of Willowmere held a funeral for Ellie's beloved feline companion, Molly. Whilst grieving, the caretaker of Willowmere castle reveals to Ellie that the castle graveyards hold a very old secret which *could* bring Molly back from the dead.

As Ellie ventures through the castle grounds she realizes that the journey will be tougher than she thought and quickly learns that some things should stay dead....

Meet the characters

Ellie

Ellie was born in the Kingdom of Willowmere and grew up with her beloved cat Molly. At the age of 11, she discovered she had magical abilities and joined the royal academy where she would be trained to use her magical abilities and serve as protector for King Aldric

Molly

Ellie's faithful feline companion. Given as a present to Ellie on her 5th birthday and the two have never been separated since. Molly has helped Ellie through some of her toughest battles

Old Man Larson

Not much is known about Old Man Larson, some say he's older than the entire kingdom. That doesn't seem true but he seems to know an awful lot about history.....

Queen Malvara

Queen Malvara has been trying to take over Willowmere for years and after losing to Ellie at a magic competition, she's had it in for "the purple wretch" ever since. Everyone mocks her because she's not even a real queen; she stole a little girl's toy tiara and has been trying to claim the throne ever since!
